

# International Conference on Futuristic Trends In Engineering And Technologies(ICFTET-2017) 25th June 2017, Goa

Welcome to The Official Website of the **International Conference on Futuristic Trends In Engineering And Technologies ICFTET-2017** will be held at Goa. The aim of the conference is to provide the platform for Students, Engineers, Researchers and Scientists to share the knowledge and ideas in the Futuristic trends in the field of Engineering.

- The Proceedings of the Conference will be published by Plagiarism Policy-CPS.
- Registered Papers will also be published in International Journals along with ISSN Number.

The Objective of International Conference on Futuristic Trends In Engineering And Technologies ICFTET-2017 is to explore new perspectives in the emerging world major developments are being done in the fields of latest research and results of scientists related to Advanced Computer Theory and Engineering topics. This conference provides opportunities for the different areas delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration. We hope that the conference results constituted significant contribution to the knowledge in these up to date scientific field.. Much more investments have been done in the recent years in the R&D sectors that play a major role for the growth of the technology. It has thus become necessary that effort be made to share the knowledge with the experts in the areas through this conference. The objective of the conference is to bring together academicians, researchers, professionals, executives, scientists, engineers and students from various industries, research organizations and educational institutions to share and exchange their ideas and information on the latest technologies. The conference would offer a large number of invited lectures from renowned speakers all over the country. The Best paper awards will be given for the papers judged to make the most significant contribution to the conference. Best of the conference papers may be recommended for International Journal Publication. Prospective authors are invited to submit full (and original research) papers (which is NOT submitted/published/under consideration anywhere in other conferences/journal) in (PDF only) format via email [icftet15@gmail.com](mailto:icftet15@gmail.com)/[15icftet.goa@gmail.com](mailto:15icftet.goa@gmail.com).

The International Conference on Futuristic Trends In Engineering And Technologies ICFTET-2017 will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of recent trends in Modern Electronics and its Applications. Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to.
